Dear Sir:

We have your recent letter and note your interest in securing queens of the Italian race. We do the basic breeding work on both the Starline and the Midnite hybrid. The Starline is essentially of Italian background. However, we are certain you would not want the hybrid stock for breeding purposes. Instead, let us refer you to Mr. George Curtis, Amancee Bee Company, LaBelle, Florida. Mr. Curtis has a very fine common stock of bees and is quite accustomed to sending overseas. I am sure he can arrange a shipment for you any time after the first of April.

We hope this proves of help to you.

Sincerely yours,

DADANT & SONS, INC.
