The Story of a Genius.

(A SHORT STORY.)
She was a genius. Everybody said so; and, indeed, there could be no doubt about the matter.
For had she not written a book—a wonderful book dealing with all the problems and difficulties of the age—Socialism, Agnosticism, Spiritualism, and every other -ism—under the sun?

How could the owner of such a name be expected to grow up like any one else?—enquired plain, practical Uncle Ben, who stood sponsor on the occasion and happened to possess well-defined ideas as to the position women ought to occupy in the world.
At school I am afraid she was not peculiarly industrious, perhaps because, without taking trouble, she could learn quicker than the rest—a very useful accomplishment.
And when school days were over there was the pleasant world opening out as comfortably as possible at her feet.

Alexander Conon—"Sandy" his friends familiarly called him—who happened to be present, could not help wondering if it did not apply to himself, for of all people in the world he seemed sometimes to be of the least good.
He fancied somehow that if that clear-voiced young asserter of principle could have had his life laid before her she would have ruthlessly condemned him. It was, after all, however, not a cruel fate, and without her hat especially, almost sweet and child-like, with its soft fair hair gathered up at the back of a small, shapely head in flat rings, and allowed to wander a little willfully over the forehead; with rather a decided mouth, which had a way of curling with unexpressed amusement.

The Story of a Genius.

Sandy used to meet her often enough in the narrow twisted streets of Upper Feniston, and he was always glad to catch sight of the green dress and the little white fox-terrier which generally went together.
Though they had scarcely exchanged two words, he could not suppress a sort of vague interest in the girl. He even felt a strange rebellious sorrow that would rise up in his heart at a certain hardness about her.
She, this clever, successful authoress, who had not yet lost all her childish ways, seemed so sadly in need of softening influence.
Her light laugh pained him, and the ringing music of her voice. Yet it was very silly to care at all; they were only strangers, and would never meet in life again.

Perhaps he was not much good—at any rate, not actively—though there are passive uses which we are apt to overlook.
Mr. Conon had no ties, nobody to depend upon the fruits of his labour, and sufficient private means to live comfortably. They consequence was he did nothing—a very easy way of earning a livelihood. His life in London was varied by long visits abroad, a voyage to Australia and a trip to the Cape.
He came back after each of these absences a thought older and more sunburnt, a few threads of grey even in his thick hair, but otherwise the same aimless, pleasure-loving Sandy. It was a very purposeless life, and entirely for himself. Yet everyone was glad to see his gay, good-humoured face amongst them once more. He was so kind to high and low, would never hurt other people's feelings, and through all his vagaries possessed a strange inborn reverence for holy things.
